## 2. Tasks included in this function

1. This role of this function is to make available the meeting rooms necessary for the successful running of YM. This has to be done within constraints as follows:
  - The venue may have insufficient rooms, or be inflexible in its practices of letting rooms
  - Required rooms may exceed budgetary realities
  - It is very likely that Friends will like to use meeting rooms in unanticipated ways
  - Rooms which were anticipated to suit a particular purpose may turn out to be unsuitable
2. To look at potential venues with an eye to suitable meeting spaces, and contribute to the selection of the venue for YM.
3. To allocate rooms to activities for YM
4. To develop ways of displaying room locations, room allocations, future room usage. To keep such information up to date as YM progresses.
5. To be tough on any Friends who try to hijack a meeting room, when it is needed for an allocated purpose.

## 3. Tasks to be done 18 – 12 months ahead

### 3.1. Selection of venue

Note that the existence of a large, flexible hang-out space (possibly the dining room) is very desirable. If small groups can meet informally in shared space, the demands on meeting rooms are reduced.
