

Australian Quaker Tapestry

Newsletter - April 2007

Quaker Community Tapestry Skills

The Foundation Course is designed for those who have never before experienced the techniques used in the 'narrative crewel embroidery' as seen in the Quaker Tapestry. The Foundation Course can accommodate equally the experienced embroiderer and those who have had very little embroidery experience.

Building Your Skill Level

The second stage course is designed to take you a step further in the Quaker Tapestry style and technique and aims to develop your skills and give you the confidence to create your own embroidery.

It is focused on design elements and lettering. All participants gain confidence as they learn new techniques.

Welcoming Bridget Guest

This month Bridget Guest arrives in Australia to conduct the Quaker Tapestry workshops. She is the Exhibition Director and embroidery instructor at the Kendal (UK) Quaker Tapestry. These are the first and only workshops ever conducted outside of the UK demonstrating the Quaker Tapestry technique. We welcome Bridget and look forward to the workshops where Friends will gather to learn from her experience.
