

Move Beyond Coal

Fossil fuels cause climate chaos.

Coal is the biggest driver of climate chaos and Australia is the world's biggest coal polluter. Currently 18 coal, oil and gas projects are awaiting approval. The four major banks are lining up to fund them.

The banks are putting their short-term profit for shareholders above the common good. None of the four majors are committing to getting out of fossil fuels. **The four major banks need to immediately rule out financial support for all new fossil projects.**

What can you do?

1. Share this flyer with your friends and family.
2. If you are staff, have a conversation with your colleagues. Talk about how to raise this with management.
3. If you are a customer, put your bank on notice. If you have your mortgage with any of the four big banks shift it to another bank. Market Forces can help. Look at their four easy steps or talk to us. We are happy to meet and talk more <https://www.marketforces.org.au/info/switch-banks/>
4. Never forget, people power regularly makes the impossible possible.

We are XR / Extinction Rebellion. Please join us.
